Information Sheet

Scientific Collecting/Research (Eagle) 50 CFR 22.21

In order to expedite the processing of your application for a Scientific Collecting/Research Permit (Eagle), make sure you include the following with your completed Fish and Wildlife License/Permit Application, Form 3-200-14b.

Scientific Collecting/Research Permits must be reviewed by Scientific Collecting/Biological Review Team for issuance/renewals/amendments. Please submit your application at least 60 days prior to requested effective date.

Include a description of proposed activity and purpose. You must be as specific as possible in applying for this permit.

- (a) Identify species and numbers of bald and/or golden eagles, parts, nests, and eggs being collected.
 - (b) Indicate the method of collecting proposed (i.e., killing or live capture).
 - (c) If live capture indicate the location where birds will be held and duration of captivity.
 - (d) Indicate specific locations where birds will be released to the wild.
 - (e) Include number and species of birds requested by year and anticipated date of completion of project.
 - (f) An outline or study proposal for any research project involved should also be provided.
- 2 Include each State where your proposed activity will be conducted. If collecting will take place only in a specific locality/localities, note specifically. Please note that additional authorization is required for collecting activities on Federal lands.
- 3 Please indicate whether you have ever held a Scientific Collecting permit, providing the number and expiration date if possible.
- 4 Applicants must have concurrent State authorization. Include copies of all applicable state licenses that authorize this activity. Federal permits are valid only when corresponding State authorization is held.
- 5 Scientific Collecting permits are issued to individuals rather than institutions. Your professional affiliation, however, should be noted. If you request authorization for subpermittees to collect under your permit, their names must be provided.
- 6 Will required records relating to the permitted activity shall be kept at the facility where such activities are conducted?
- 7 All specimens must be donated to the National Eagle and Wildlife Property Repository, Building 619, Rocky Mt. Arsenal, Commerce City, Colorado 80022, at the completion of the study.
- 8 List telephone numbers, including area code, where you can be reached between 8:00 a.m. and 5:00 p.m.

The public reporting burden for these reporting requirements is estimated to be 1 hour, including time for reviewing instructions, gathering and maintaining data, and completing and reviewing the forms. Comments regarding the burden estimate or any other aspect of the reporting requirement(s) should be directed to the Service Information Collection Clearance Officer, MS 224 ARLSQ, Fish and Wildlife Service, Washington, D.C. 20240, or the Office of Management and Budget, Attention: Desk Officer for the Department of the Interior, Washington, D.C. 20503.

An agency may not conduct and a person is not required to respond to a collection of information unless a currently valid OMB control number is displayed.
